Intralinks Integration Adapter 5.21

Release Notes

For Intralinks Internal Use Only
Not for external distribution

March 2024

Introduction

This document describes new functionality in Intralinks Integration Adapter (ILIA). The document also identifies changes that addresses defects found in previous releases of Intralinks Integration Adapter.

Summary of enhancements and new functionality

Ability to order archives

Users with Manager Plus and Hidden Manager Plus roles can now order downloadable or shippable archives.

Updated look and feel for Configuration Manager and the Process Status Monitor

The Configuration Manager and Process Status Monitor have been updated to reflect the Intralinks corporate colors.
